Hi Julie

I hope my email finds you well. Would you please answer the questions below?

1. Do you have any knowledge of any actual fraud or suspicion of fraud affecting the entity?

I am aware of rumors of allegations of fraud; however, no official allegations have been made against the City or any current or former public official employee.

2. Are you aware of any allegations of fraud or suspected fraud affecting the entity?

Same response as question # 1

3. What do you consider to be the risks of fraud within the entity, including any specific fraud risks the entity has identified? Are there any particular account balances or transaction classes may be more susceptible to fraud than others? If so, please explain

ACH controls are a risk factor in the City. We currently do not have dual control processes in place.

Thank you

Good Afternoon Natalie,

Briana Swingle is our grant manager at Langford. I think Julie and Nanci shared on the phone last week. She was able to share the below and attached information about our ARPA grant funds.

There were three payments received.:

- 1<sup>st</sup> Tranche (Sept 2021) : \$109,521.39
- 1<sup>st</sup> Tranche additional allocation (March 2022): \$216.45
- 2<sup>nd</sup> Tranche (September 2022): \$109,737.84

The city is an annual reporter and not a quarterly reporter. The quarterly reporters are those who have large populations or received over \$10 million. The two reports that have been submitted are attached. The CFDA number is 21.027.

Please let me know what else you might need regarding this part of our audit preparation.

Thank you,

Good afternoon,

Here is a list of what we would need to facilitate the update of the FY23 and FY24 bank reconciliations within FundView., this will give us a good base for audit prep and keeping current.

PDF bank statements for each account for both fiscal years

Downloaded transactions for Main operating account in xls or csv format. These can be all in one file we can format for import all at once.

Most recent completed audit document

I am sure we can find all the matches as Julie felt confident all transactions have been entered, we will adjust for any posted in wrong accounting period.

I will let you know if we need anything else or have questions.

Thanks  
Nichola
